Anlage 5 (zum Datenbericht Mindestanforderungen gemäß § 23 StandAG und geowissenschaftlichen Abwägungskriterien gemäß § 24 StandAG)

Schichtenverzeichnis Bohrung Broistedt 2

Stand 21.09.2020

Hinweis:

Vorliegender Datenbericht zeigt alle entscheidungserheblichen Daten, die mit Stand 07.09.2020 gemäß den Regelungen und Verfahren nach dem Geologiedatengesetz veröffentlicht werden können. Siehe auch BGE 2020I Teil 3 von 4.

Entscheidungserhebliche Daten und Tatsachen für die geowissenschaftlichen Abwägungskriterien

Die Veröffentlichung von entscheidungserheblichen Tatsachen und Erwägungen, hier geologische Daten, erfolgt nach dem Gesetz zur staatlichen geologischen Landesaufnahme sowie zur Übermittlung, Sicherung und öffentlichen Bereitstellung geologischer Daten und zur Zurverfügungstellung geologischer Daten zur Erfüllung öffentlicher Aufgaben (Geologiedatengesetz – GeolDG).

Das GeolDG löst das Lagerstättengesetz ab und nach § 1 GeolDG (GeolDG) regelt es die staatliche geologische Landesaufnahme, die Übermittlung, die dauerhafte Sicherung und die öffentliche Bereitstellung geologischer Daten sowie die Zurverfügungstellung geologischer Daten zur Erfüllung öffentlicher Aufgaben, um den nachhaltigen Umgang mit dem geologischen Untergrund gewährleisten und Geogefahren erkennen und bewerten zu können. Geologische Daten werden insbesondere auch für das Standortauswahlverfahren nach dem Standortauswahlgesetz (StandAG) benötigt.

Das GeolDG trat mit dem 30.06.2020 in Kraft, so dass seitens der BGE, den Landesministerien und Landesbehörden ab diesem Zeitpunkt mit den Verfahren nach dem GeolDG zur Kategorisierung und öffentlichen Bereitstellung geologischer Daten begonnen werden konnte. Die erforderlichen Verfahren waren aufgrund ihres Umfangs nicht in dem bis zur Veröffentlichung bestehenden Zeitraum umzusetzen. Insofern werden nach dem 28.09.2020 weitere geologische Daten veröffentlicht werden. Die Veröffentlichung erfolgt mit Hilfe einer Revision des vorliegenden Datenberichtes. Dabei werden die bisher im vorliegenden Bericht weiß abgedeckten Bereiche nicht weiter abgedeckt, sondern die „darunter liegenden“ Daten sichtbar gemacht.

Mit diesen Anlagen sind der untersetzenden Unterlage (BGE 2020I) die entscheidungserheblichen Daten zu den Mindestanforderungen und geowissenschaftlichen Abwägungskriterien angefügt. Die darin angegebenen Koordinaten beziehen sich dabei immer auf die den identifizierten Gebieten und Teilgebieten zugrundeliegenden Daten und beschreiben damit nicht zwingend das Teilgebiet selbst.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial statements. This includes not only sales and purchases but also expenses, income, and any other financial activity. The document also highlights the need for regular reconciliation of accounts to identify any discrepancies early on.

Next, the document covers the process of budgeting and forecasting. It explains how a well-defined budget can help in managing resources effectively and achieving organizational goals. The document provides a step-by-step guide on how to create a budget, starting with identifying the organization's objectives and then allocating resources accordingly. It also discusses the importance of monitoring and adjusting the budget as needed.

The third section of the document focuses on financial reporting. It outlines the various types of financial statements, such as the balance sheet, income statement, and cash flow statement, and explains how they are prepared. The document also discusses the importance of providing clear and concise reports to management and stakeholders, and how these reports can be used to make informed decisions.

Finally, the document discusses the role of internal controls in ensuring the accuracy and reliability of financial information. It explains how internal controls can help in preventing fraud, reducing errors, and ensuring compliance with applicable laws and regulations. The document provides a list of key internal control activities and offers practical tips on how to implement them effectively.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every receipt, invoice, and bill should be properly filed and indexed for easy retrieval. This not only helps in tracking expenses but also ensures compliance with tax regulations.

Next, the document outlines the process of reconciling bank statements with the company's financial records. It stresses the need to identify and resolve any discrepancies as soon as they are discovered to prevent errors from compounding over time.

The following section covers the preparation of financial statements, including the balance sheet, income statement, and cash flow statement. It provides a step-by-step guide on how to gather the necessary data and present it in a clear and concise manner for management review.

Finally, the document concludes with a summary of key points and a reminder to stay vigilant in monitoring the company's financial health. It encourages regular communication between the finance department and other stakeholders to ensure everyone is on the same page.

the 1990s, the number of people with a mental health problem has increased in the Netherlands (Van't Hof *et al.* 2000).

There are several reasons for this increase. First, the number of people with a mental health problem has increased in the general population. Second, the number of people with a mental health problem who are seeking help has increased. Third, the number of people with a mental health problem who are receiving help has increased.

The increase in the number of people with a mental health problem who are seeking help is due to several factors.

First, the number of people with a mental health problem who are seeking help has increased because of the increasing awareness of mental health problems. Second, the number of people with a mental health problem who are seeking help has increased because of the increasing availability of mental health services.

Third, the number of people with a mental health problem who are seeking help has increased because of the increasing willingness to seek help.

The increase in the number of people with a mental health problem who are receiving help is due to several factors. First, the number of people with a mental health problem who are receiving help has increased because of the increasing availability of mental health services.

Second, the number of people with a mental health problem who are receiving help has increased because of the increasing willingness to seek help.

Third, the number of people with a mental health problem who are receiving help has increased because of the increasing effectiveness of mental health services.
