FÜR ENDLAGERUNG

# Anlage 9 (zum Datenbericht Mindestanforderungen gemäß § 23 StandAG und geowissenschaftlichen Abwägungskriterien gemäß § 24 StandAG)

## Schichtenverzeichnis Bohrung Staffhorst Z9

Stand 21.09.2020

Hinweis:

Vorliegender Datenbericht zeigt alle entscheidungserheblichen Daten, die mit Stand 07.09.2020 gemäß den Regelungen und Verfahren nach dem Geologiedatengesetz veröffentlicht werden können. Siehe auch BGE 2020I Teil 3 von 4.

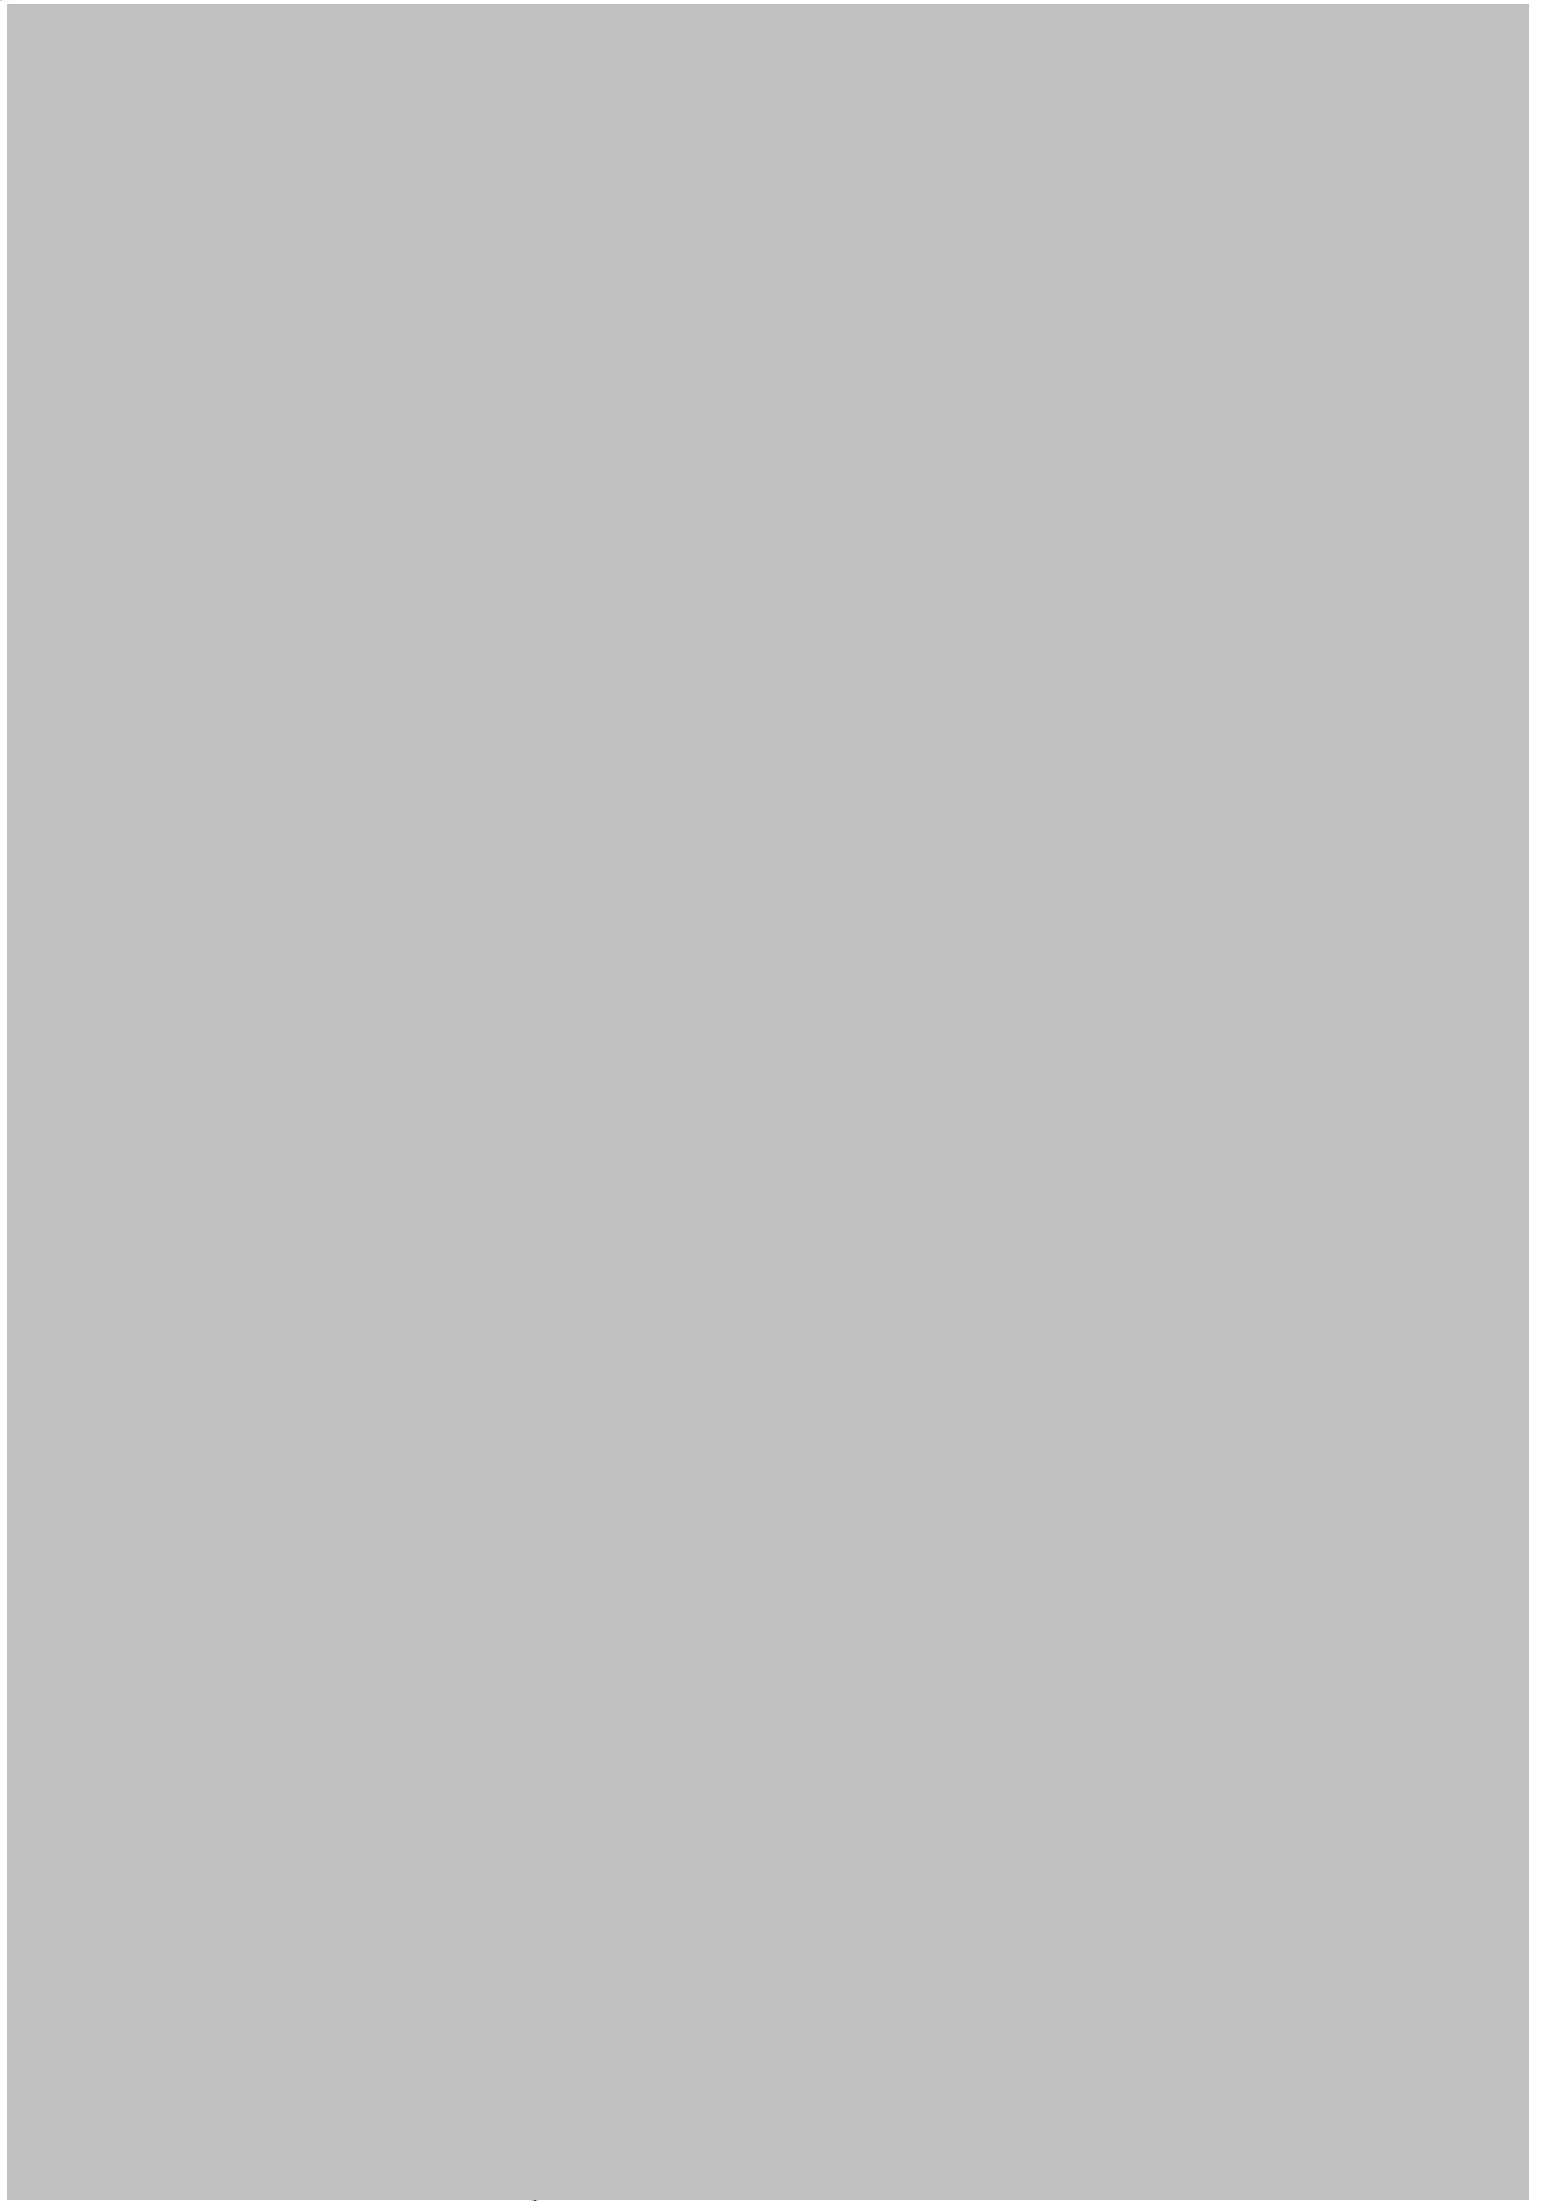

## **Entscheidungserhebliche Daten und Tatsachen für die geowissenschaftlichen Abwägungskriterien**

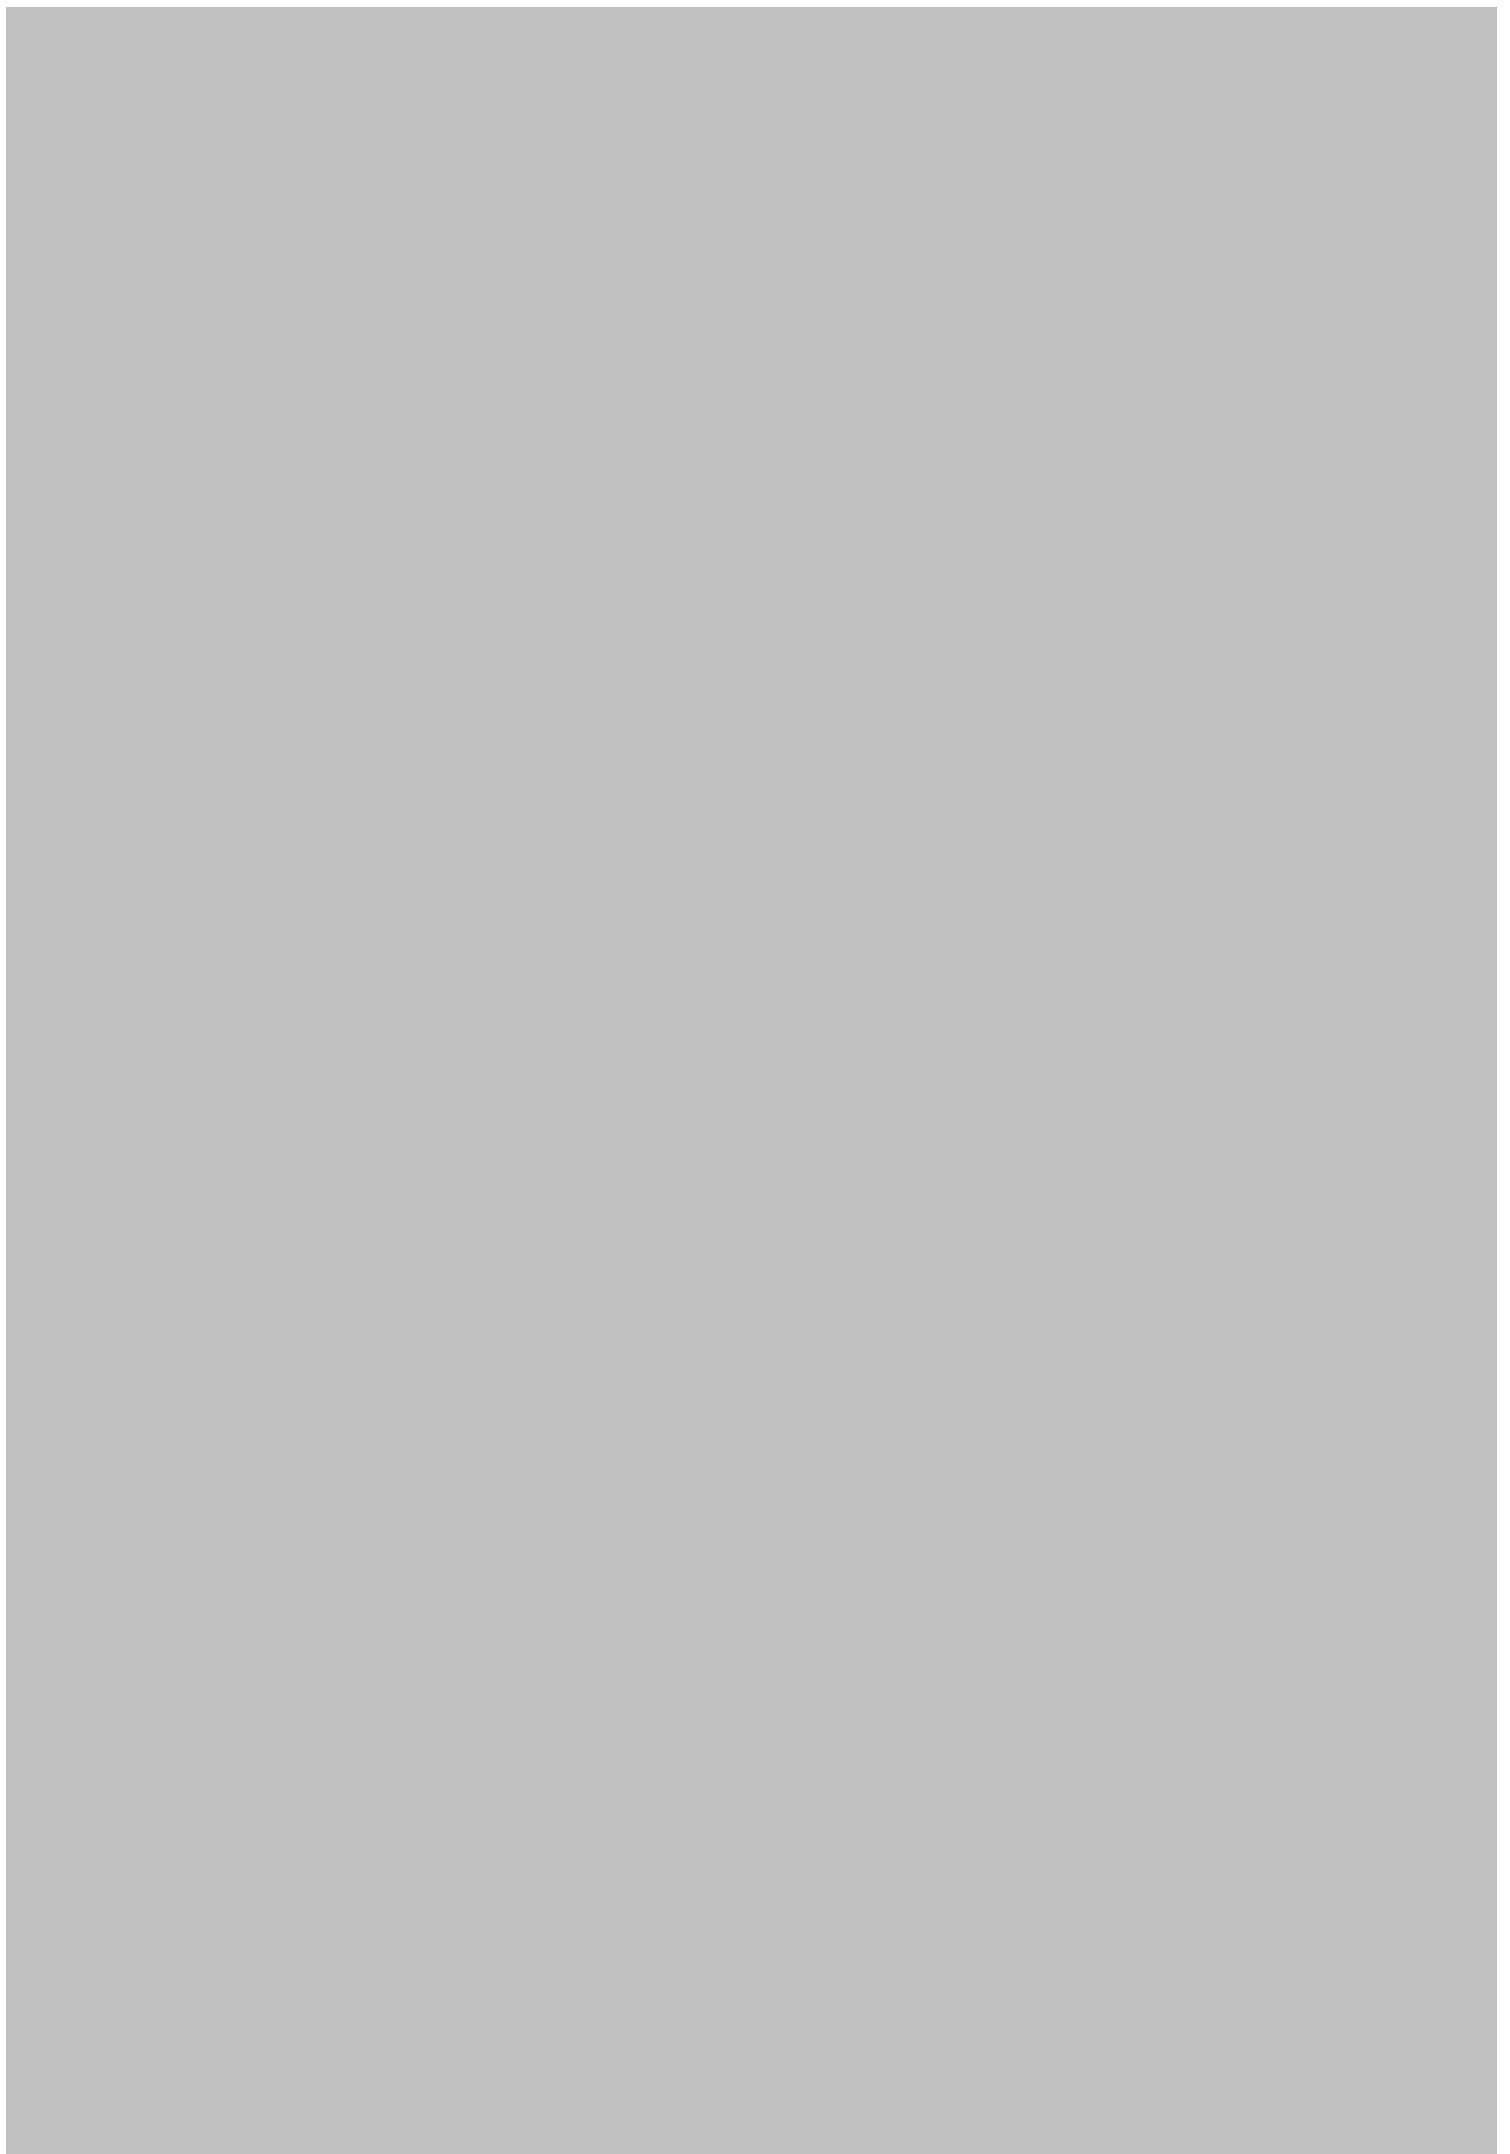

Die Veröffentlichung von entscheidungserheblichen Tatsachen und Erwägungen, hier geologische Daten, erfolgt nach dem Gesetz zur staatlichen geologischen Landesaufnahme sowie zur Übermittlung, Sicherung und öffentlichen Bereitstellung geologischer Daten und zur Zurverfügungstellung geologischer Daten zur Erfüllung öffentlicher Aufgaben (Geologiedatengesetz – GeolDG).

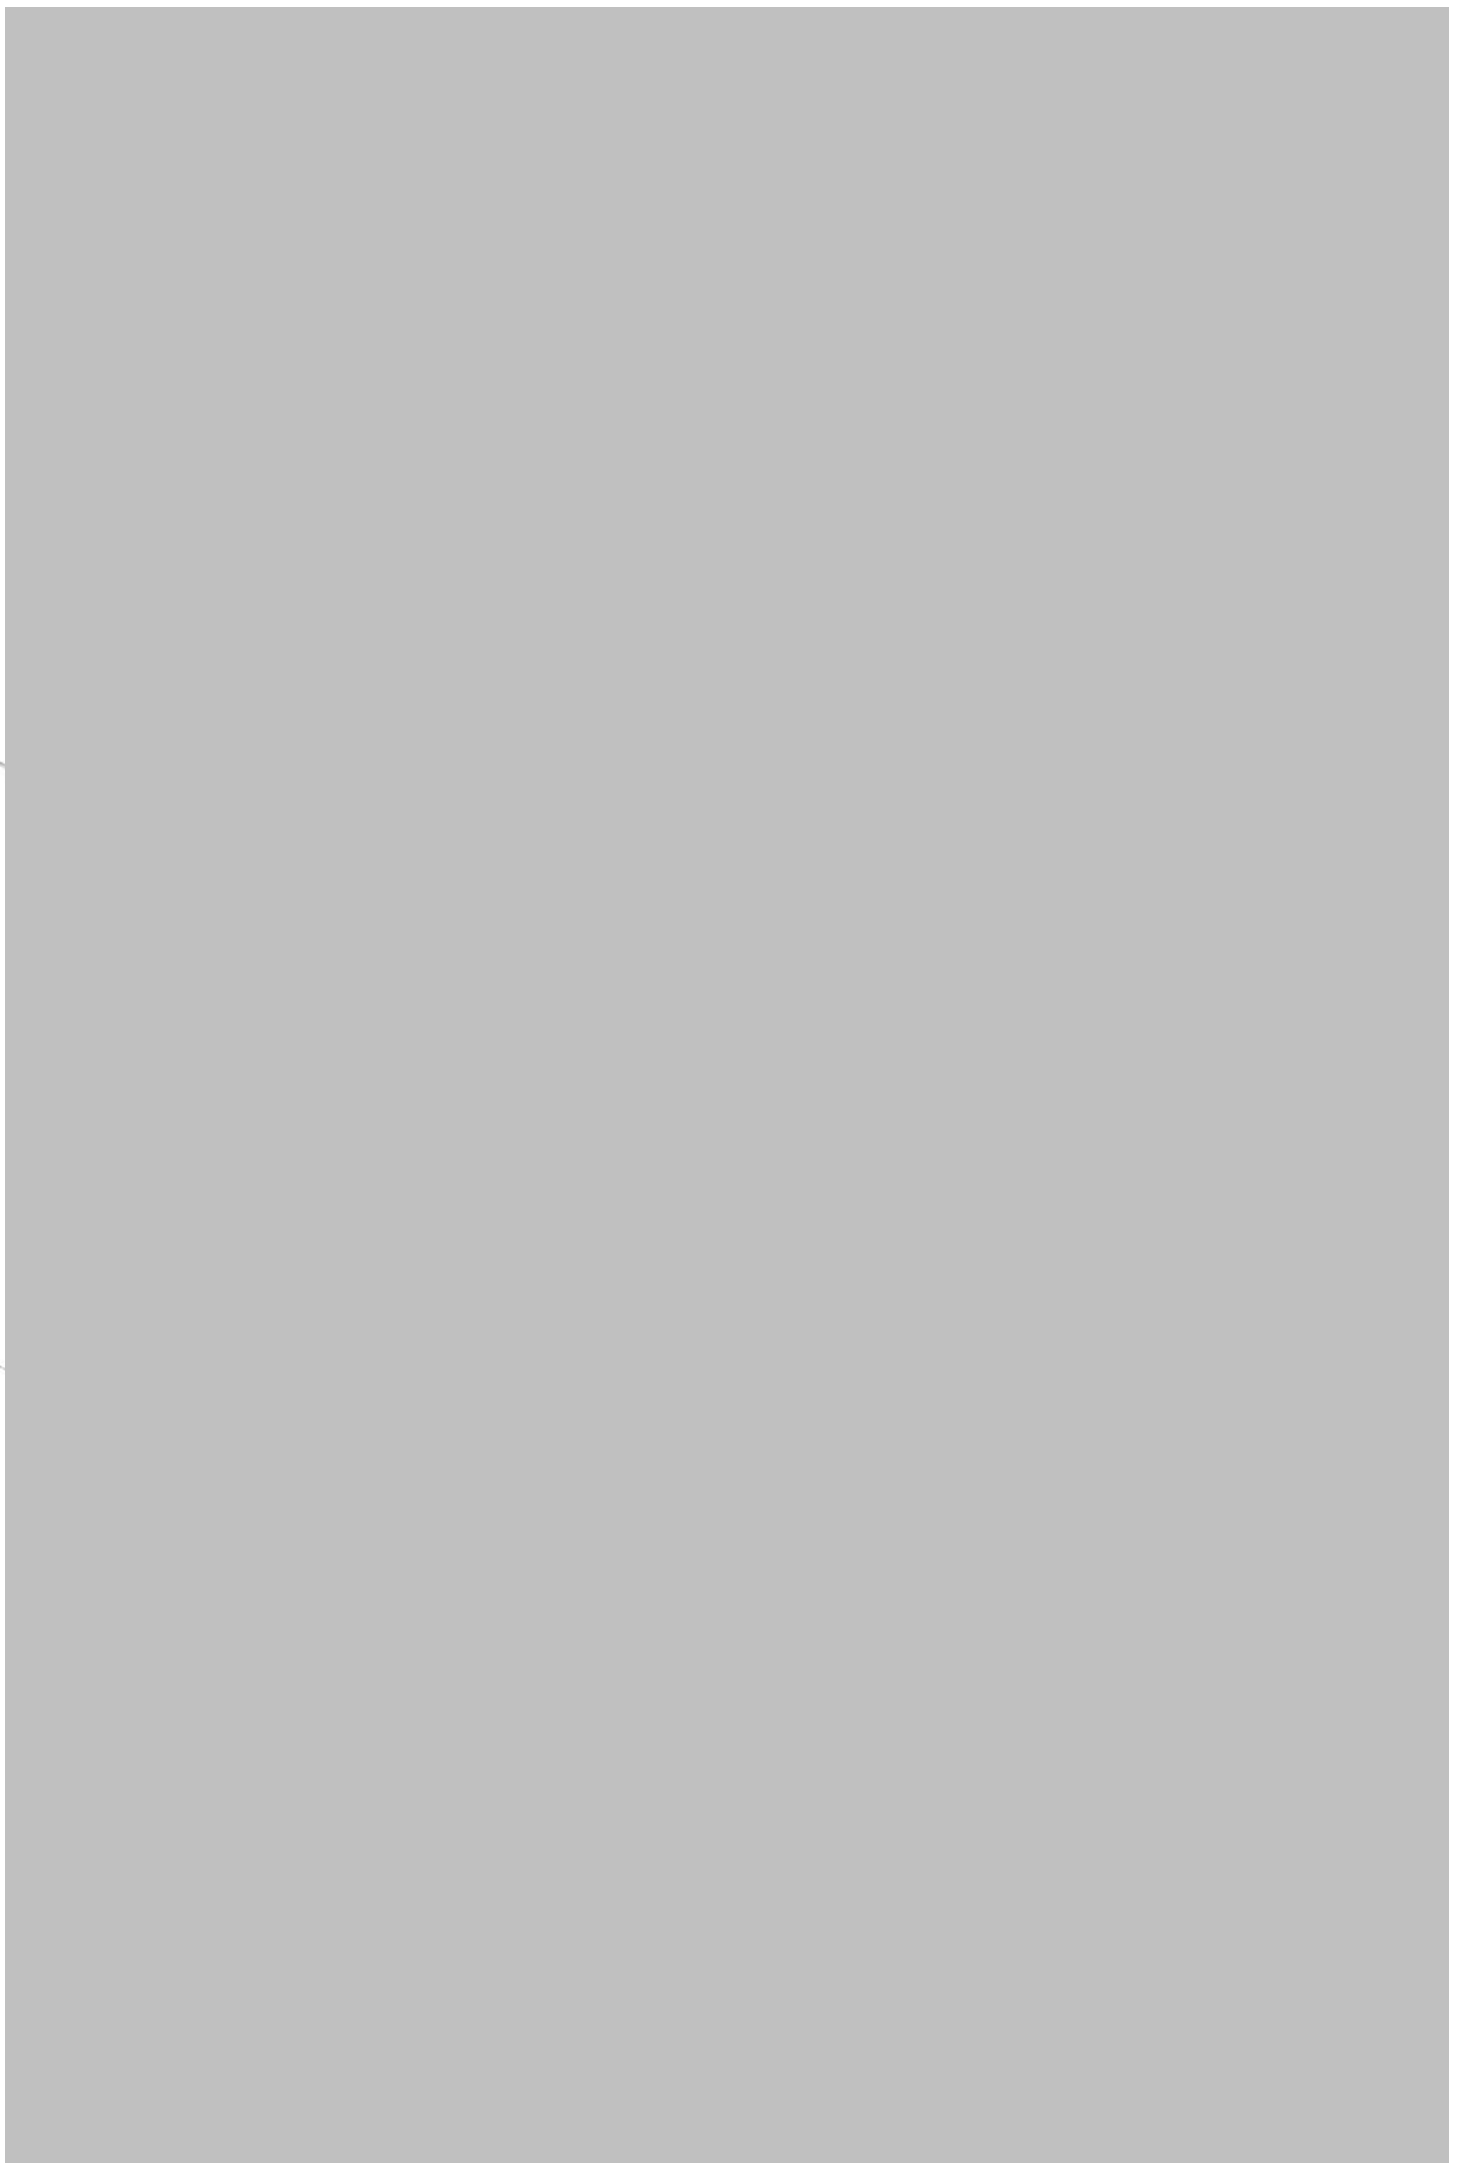

Das GeolDG löst das Lagerstättengesetz ab und nach § 1 GeolDG (GeolDG) regelt es die staatliche geologische Landesaufnahme, die Übermittlung, die dauerhafte Sicherung und die öffentliche Bereitstellung geologischer Daten sowie die Zurverfügungstellung geologischer Daten zur Erfüllung öffentlicher Aufgaben, um den nachhaltigen Umgang mit dem geologischen Untergrund gewährleisten und Geogefahren erkennen und bewerten zu können. Geologische Daten werden insbesondere auch für das Standortauswahlverfahren nach dem Standortauswahlgesetz (StandAG) benötigt.

Das GeolDG trat mit dem 30.06.2020 in Kraft, so dass seitens der BGE, den Landesministerien und Landesbehörden ab diesem Zeitpunkt mit den Verfahren nach dem GeolDG zur Kategorisierung und öffentlichen Bereitstellung geologischer Daten begonnen werden konnte. Die erforderlichen Verfahren waren aufgrund ihres Umfangs nicht in dem bis zur Veröffentlichung bestehenden Zeitraum umzusetzen. Insofern werden nach dem 28.09.2020 weitere geologische Daten veröffentlicht werden. Die Veröffentlichung erfolgt mit Hilfe einer Revision des vorliegenden Datenberichtes. Dabei werden die bisher im vorliegenden Bericht weiß abgedeckten Bereiche nicht weiter abgedeckt, sondern die „darunter liegenden“ Daten sichtbar gemacht.

Mit diesen Anlagen sind der untersetzenden Unterlage (BGE 2020I) die entscheidungserheblichen Daten zu den Mindestanforderungen und geowissenschaftlichen Abwägungskriterien angefügt. Die darin angegebenen Koordinaten beziehen sich dabei immer auf die den identifizierten Gebieten und Teilgebieten zugrundeliegenden Daten und beschreiben damit nicht zwingend das Teilgebiet selbst.

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million, and the number of people aged 75 and over has increased from 5.5 million to 7.5 million (Office for National Statistics 2000).

There is a growing awareness of the need to address the needs of older people, and the need to ensure that the health care system is able to meet the needs of older people. The Department of Health (2000) has identified the need to ensure that the health care system is able to meet the needs of older people, and has set out a number of key objectives for the health care system to meet the needs of older people.

The objectives of the health care system to meet the needs of older people are:

- To ensure that older people have access to the health care services that they need.
- To ensure that older people are able to live independently and actively.
- To ensure that older people are able to participate in the decisions that affect their lives.

The health care system has a number of key objectives to meet the needs of older people, and these objectives are:

- To ensure that older people have access to the health care services that they need.
- To ensure that older people are able to live independently and actively.
- To ensure that older people are able to participate in the decisions that affect their lives.

[The body of the page is completely blank, suggesting the text has been redacted or is otherwise obscured.]

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every receipt, invoice, and bill should be properly filed and indexed for easy retrieval. This is particularly crucial for businesses that deal with a high volume of transactions, as it allows for quick verification of financial data and helps in identifying any discrepancies or errors.

Next, the document addresses the issue of budgeting and financial planning. It suggests that businesses should create a detailed budget at the beginning of each fiscal year, taking into account all expected income and expenses. Regularly comparing actual performance against the budget can help management make informed decisions and adjust their strategies as needed. Additionally, the document highlights the importance of setting aside funds for contingencies and future investments to ensure long-term financial stability.

The third section focuses on the role of technology in modern accounting. It discusses how software solutions can streamline various accounting tasks, from data entry to report generation, significantly reducing the risk of human error and saving valuable time. The document also touches upon the importance of data security, advising businesses to implement robust cybersecurity measures to protect their sensitive financial information from unauthorized access and potential data breaches.

Finally, the document concludes by emphasizing the value of professional advice. It recommends that businesses consult with qualified accountants or financial advisors to ensure compliance with the latest tax laws and regulations. These professionals can provide personalized guidance tailored to the specific needs and goals of the business, helping to optimize its financial performance and minimize its tax liability.
